1           Q.       Now, if you saw him on the 17th -- of  
2       course, we had a deposition session on the  
3       16th -- did the deposition session on the 16th  
4       where I was asking you questions, did that --

5           A.       I don't know if I saw him. Can I look  
6       at my phone? My phone will tell me what day I  
7       saw him.

8           Q.       Sure.

9           A.       I don't want to give you a date that I  
10      didn't see him.

11          Q.       That's fine. The marvels of modern  
12      technology.

13          A.       Let's see. The 17th I saw him.

14          Q.       Okay. And a moment ago you told me  
15      you had been crying for a couple of days, and the  
16      question I was working into is, we had a

12 A. Just the deposition itself. There's  
13 been so many of them.

14 Q. I see. Okay. Anything about my  
15 questions or my behavior that --

16 A. No, not that I recall, no.

17 Q. All right. So you saw Dr. Harmon on  
18 the 17th. We have a letter from a doctor you saw  
19 on the 18th. Anybody else?

20 A. No.

21 Q. Have you talked to Terri Pechner since  
22 we last sat here in this room on May 18th?

23 A. I talked to her once, but I don't
